LAGE'S RUBBER RUBBER MACHINE BELTING,
For Sale by LUKE C. CHILDS, 67 Water St, BOSTON.
THE above superior article is fast superceding the use of Leather Belting, as for most pur- poses it is in every way better. Its good qualities are that no degree of moisture will affect it, and it will bear almost any degree of heat. It is of equal width and thickness throughout, and requires only one lacing in the longest belt. Practical mechan- ics, who have used this particular manufacture, think there is again of 15 to 25 per cent in the movement of the machinery, as it is perfectly flex- ible, and runs with much less strain upon the pul- leys and drums.
Also for sale as above—HOSE, and other Goods of Rubber material. 1aw6m feb 23

PATENTS.
AMERICAN AND FOREIGN OFFICE,
And Agency of the U. S. Patent Office, Washington.
22 State Street—Boston.
THE subscriber, by appointment from the Com- missioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and for- warding to the same all such models, specimens of ingredients and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifica- tions, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Pat- ents secured in Europe and other countries.
By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of four- teen year's practice—an extensive collection of rare works, documents, decisions, &c on mechani- cal subjects and the Patent Laws—and patents of different countries, collected at much expense dur- ing the long time this office has been established, and to which daily additions are being made, to- gether with accounts here kept of inventions pa- tented at Washington, enable me to afford import- ant assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

Valuable Water-Power and Land for Sale.
THE subscriber offers for sale 200 acres of good land, situated in the east part of Sebec, on each side of Sebec River, comprising the Falls known as "Half-mile Rips." A substantial Dam has just been built at these falls, and by running a canal a short distance a fall of 20 feet is obtained, affording one of the best water privileges in the State of Maine. The Sebec River affords suffi- cient water through the dryest seasons for a large amount of Machinery, is not obstructed by ice, and there is no danger of damage by freshet. The lo- cation, being 36 miles from Bangor, and 12 from Katahdin Iron Works, is a favorable one for the manufacture of Cotton, Wool, Iron, &c. Also, a Saw-Mill and Shingle-Machine might do a good business.

RUST PROOF IRON,
FOR
ROOFING, WINDOW SHUTTERS, &c.
THE subscribers beg to call the attention of all those interested in roofing, to their GAL- VANIZED TIN PLATES, and to the many ad- vantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmos- phere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and conse- quently form a much better and tighter roof; re- quiring far less frequent repair, whilst the first cost is but a trifle more.
The subscribers would also call the attention of all dealers and workers in metals, to the many oth- er purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those inter- ested in TELEGRAPHIC LINES, to their Gal- vanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal du- rability with that metal.
Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe) constantly on hand, from 16 to 32 wire guage.

To the Hon. Justices of the Supreme
Judicial Court for the State of Maine, at a term of said Court to be held at Machias, in the County of Washington, on the first Tuesday of July, A. D. 1847, for said County of Washington and for the County of Aroostook but now sitting at Portland, in and for the County of Cumber- land.
WALDO T. PIERCE and HAYWARD PEIRCE, both of Bangor, in the county of Penobscot, merchants, represent, that they are seized in fee in equal proportions and as tenants in common with other persons to them unknown, of five undivided sixteenth parts of township num- bered seven, in the third range of townships west from the east line of the State, lying in said county of Aroostook, and that they cannot occupy and im- prove their said part of said township while it re- mains in common and undivided. Wherefore your Petitioners pray that their five-sixteenths of said township may be set off to them in fee together, and separate from the rest; and for that purpose they pray that your Honors, at the present term of the Court at Portland aforesaid, would order no- tice of this Petition, returnable at Machias as afore- said, and upon proof of such notice that your Hon- ors would order partition thereof to be made, and Commissioners to be appointed for that purpose, so that they may hold their said proportion of said township in severalty by themselves, according to the provisions of the statute in such cases made and provided.
WALDO T. PEIRCE.
HAYWARD PEIRCE.

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
A Cure for Life Secured.
For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder; Inflammatory and Mercuri- al Rheumatism; Impurity of Blood, Weakness and In- flammation of the Spine; and for the relief of Married La- dies.
THE VEGETABLE PILE ELECTUARY.—Invent- ed by Dr. A. Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.
Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either Bleeding or Blind, Internal or External; and probably the only thing that will. There is no mis- take about it. It is a positive cure, speedy and per- manent. It is also a convenient medicine to take, and improves the general health in a remarkable manner.
Each box contains twelve doses, at 8 1-3 cts. per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disa- greeable, inconvenient, and offensive; and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and re- moving the cause, renders the cure certain and permanent.
INFLAMMATORY DISEASES.—Although the Elect- uary was originally prepared for the cure of PILES, yet it has proved itself to be a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part of organ. In Inflammation and Congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder; in Inflam- matory and Mercurial Rheumatism, it is the best Medicine ever discovered.
IMPURITIES OF THE BLOOD.—For all Impuri- ties of the blood, arising from the imprudent use of mer- cury, or other causes; for all Diseases of the Skin and Scrofulous Affections, and all cases where the blood is powerfully determined to the head, producing dizziness and distress, Dr. Upham's Electuary is entirely unri- valed.
TO MARRIED LADIES.—Married ladies are almost invariably subject to that painful and injurious disease the PILES, with consequent Inflammation of the stomach, bowels and spine, weakness of the back, flow of blood to the head, &c. The Electuary is per- fectly safe for Pregnant Ladies, and the most usual Cathartic [illegible] will not [illegible] remove the Piles and all inflammatory diseases, without pain or irritation, [illegible] delivery, [illegible].
CURE FOR THE PILES GUARANTIED.—The Electuary contains [illegible] Colocynth, Gamboge, [illegible] Purgative. No fear of taking cold [illegible] ence, no change [illegible] cording to the directions, a cure for Life is Guarantied.

John S Sayward,—Editor

WEDNESDAY, MAY 19, 1847.

☞ The Bangor Gazette, in speaking of the condition of the Public Schools in Maine and Massachusetts, says that Mr Mann the Secretary of the Board of Education in Massachusetts 'gilds' his description of the state of the schools in that State. This is quite a new charge. Many of the teachers there have been in arms against the reports of Mr Mann for underrating the schools. He has been close in his examinations and caustic in his description of the defects in the school system, the school houses and the mode of teaching. He has wrought great and salutary changes, and effected many essential reforms, and these results are not generally the growth of flattery and gilding. Mr Mann's heart is in the great cause of popular education, and he would not be likely to gild where he wished to correct and cure.—We have read most, if not all, of Mr Mann's various reports, and we certainly have received quite other impressions than that he was disposed to conceal any of the defects of the schools by him examined. He strikes deep, and shows an earnest endeavor to get at the real state of the case, and to state it with great clearness and truthfulness.

The fact undoubtedly is, that in some of the towns and cities of Maine, we have as good schools as they have in Massachusetts, but that as a whole the schools in Massachusetts are better than with us. It would be strange if it were not so. We have a newer country and more sparsely settled than there. We have had no Board of Education, as there, to awaken public attention. We have no schools for teaching teachers, as there. There is a necessity, then, for the people of Maine making themselves acquainted with the real and relative merits of their schools, and with their accustomed energy to aim for as good schools, if not the best schools of any State in the Union. The people must understand the evils that exist before they can be expected to apply the remedy. The first work is to learn the real state of the case relative to our schools. It may be unpleasant, it may seem like unkind exposure, it may wound our pride, but it is essential in order to secure the needed reform.

☞ It is exceedingly funny to notice the course of the locofoco press in reference to the Presidency. Some of them are landing Gen Scott and shedding the most sincere and scalding tears from fear that the Whigs will be so ungrateful and do violence to the welfare of the country by the neglect of Henry Clay and other noble and patriotic champions of the Whig cause! Others express great alarm, lest the Whigs will do something to "prevent the democracy and the people from bestowing upon Gen Taylor the highest civic honors."

The democracy are evidently unmindful of the commandment against covetousness, for they, about this time evidently covet the noblehearted standard bearers of the Whigs. Well, all their turnings and twistings—their feints and longings show clearly enough this truth, that they have no confidence in their own leaders and no hope of electing any of them, and as for again trying the experiment of scaring up an obscure man, that they dare not attempt for the present.

The Whigs should be steady and self possessed, relying upon their principles and making honorable exertions for their extension, and by and by the light of better and purer days will dawn upon our land and gladden the heart of the patriot and give increased confidence in our political institutions.

☞ The Free American at Augusta, established to oppose the law of this State restraining the sale of spirituous liquors, does not incline to reply to the remarks upon its position, made by the several papers in the State. If means to accomplish its purpose, if possible with little of controversy. This imposes the duty upon other presses of discussing at length the great principles involved in the temperance enterprize and in the necessity of legal restraints. It does not follow, in our judgment, that because the law of kindness is that upon which we must mainly rely, for the reformation of the inebriate, that there should be no law of restraint. The temperance cause embraces two great features, reform and restraint, and in carrying the cause onward, reference should be had to both these.

☞ The Bangor Democrat states that the legislature now in session will probably pass a law for the election of the member of Congress by plurality instead of a majority. After the passage of such a law new elections will be ordered to fill the vacancies existing in this State.

The Whigs in this Congressional District should be preparing for the conflict, as there is a prospect of the loc s having a plurality of candidates.

☞ The Portland Bulletin noticed a few days since, the arrival in that beautiful city and city of beauty, of the Grand Sachem of the Bangor Antiquarian Society. After giving a very learned and unique notice of the history and ground work of the society, it states that the motto upon the arms of the Grand Sachem is "Che ma ha sea-ta O o-che hco-sno" which being interpreted is, 'Browse Moose or Starve.'"

☞ Philip Marett, the President of the New England Bank Boston, has been detected in appropriating to his own benefit a portion of the earnings of the Bank. He paid over on the demand of the Directors, about sixty thousand dollars, demanded by them as belonging to the Bank.

☞ Great, fat, sleek looking Salmon have come to town in abundance. S... are now ... the market ... varieties ... king in he ... plied and ready ...

☞ The ... of Maine ... Works are now turning out ... rail road iron a week. They have a large contract to supply ... the Atlantic and St Lawrence Rail Road Company.

☞ Building contractors should notice the advertisement in our columns for proposals for building an addition to the alms house in this city.

Arrival of the BRITANNIA.

Fourteen days later from Europe.

The steamship Britannia, Capt Harrison, arrived at Boston on Monday.

She left Liverpool on the 4th, and has made her passage in about 12 1-2 days.

The Britannia brought 87 passengers to Halifax, which ... left 12 and took 15 additional ... She has brought about $250,000 in specie.

The commercial news is of deep and alarming interest. The condition of the Bank of England and the measures adopted for its security, have most seriously effected the manufacturing interests throughout the country, inducing many of the manufacturers to stop their mills and discharge many of their workmen; the operations of the merchants too, are paralysed, the shop keepers, are also feeling the effects of these measures in the falling off of their sales, added to these things, the generally cold and cheerless state of the weather, throwing doubt and gloom over the prospects of coming harvests, and certainly the aspect of things in England is sufficiently unpromising in a commercial point of view.

The extraordinary panic in the money market is traced to the power of the Bank of England. The directors of the bank refuse to discount the best paper except on usual terms, which exclude nearly every bill. Money is in greater demand than it has been since 1825.—The bullion in the bank (about eight millions) since amounted to upwards of sixteen millions sterling. Good mercantile bills were readily discounted at two and a half to three per cent—but now it is difficult to obtain discounts or advances on the best security. The Chancellor of the Exchequer said, in the House of Commons, that the aspect of affairs was not alarming, and yet deputations are coming to London from the large towns to get the currency laws altered. They complain of the power of the Bank Charter Act. The greatest pressure is felt by the country banks, which receive no assistance whatever at the present time from the Bank of England. This in turn operates severely upon the trade of the country.—There is only about nine millions of specie now in the bank. The Irish measures, the extensive importations of corn and flour, and railways, have ruined the bank and brought disaster upon the country.

The price of cotton on the sailing of the steamship Cambria had a downward tendency, since her departure prices have further receded, the market has become flat, the sales less, and speculators not operating. Several causes have produced this reaction—the prominent one the restrictive measures of the Bank, its advance in the rate of interest, and its refusal to discount bills bearing the endorsement of some of the first houses in England, who are said to have been engaged in speculation, and shipping gold to the United States. This movement has had a most telling effect upon the manufacturing action of the country, and Cotton market suffers under this pressure.

There has been some fluctuation in the price of Grain and Flour during the month, but prices have now settled down at 40s for Western Canal Flour. American red Wheat 10s 6d to 11s 9d, and white 12s to 12s 3d per bushel. Indian Corn 51s to 52s, red 52s to 55s. Upon these prices the money market has had a depressing influence, and nothing but the conviction that as the year advances the scarcity will become more palpable, has sustained the current quotations. During the last day or two Wheat has advanced 3d per 70 lbs, Western Flour 1s per barrel. Philadelphia and Baltimore Flour 6d.—The direct importation of Indian Corn into the Irish ports continues large ... the Liverpool market the demand is limited, and prices have declined 2s per 480 lbs on yellow, and 1s on white. Indian Meal as before. The stock of Grain held in this country is greatly reduced.—The present prices are diverting arrivals from this port and that of London, and large orders are forwarded from the continent to these cheaper markets. Supplies which have come from the interior of the continent for transhipment to England, have been reshipped and returned for consumption.

The Cotton market has somewhat declined, though the Grain market has rather improved, but it is suggested that the rise in grain just before the departure of the steamer, may be designed to aid speculation.

The Government scheme of general education, seems destined to pass through Parliament triumphantly, notwithstanding the opposition of the dissenters. It has passed the second reading by a majority of 325.

The abrogation of the existing Navigation laws, seems highly probable.

The passage of the new emigration act by our Congress, seems to be producing considerable excitement among those interested in shipping paupers to the U S. It was thought that the Act would reduce the number of emigrants nearly one half. A public meeting had been held in Liverpool to take measures to remedy the grievance.

O'Connell is said to be rapidly sinking. He was at Lyons at the latest dates, being unable to proceed further.

Lord Cowley, the brother of the Duke of Wellington, died a short time since in Paris.

France.

The Chamber of French Deputies has recently been occupied with the reception and discussion of numerous petitions for the abolition of slavery in the French Colonies, and the action of the Chambers is considered tantamount to a declaration in favor of the petitioners.

Great distress is said to prevail on account of the scarcity of food; the weather was unpromising and vegetation was very backward, a rise in the price of all kinds of food is expected in May and June. Efforts are being made to induce the French Government to admit corn, cattle and salted meats duty free. The agricultural interests are opposed to this, but the mercantile and manufacturing interests are of course favorable to the measure, and Government also is believed to regard it with favor.

The news of General Taylor's victories was received with great interest and satisfaction in Paris. Some complaint, however, is made of our proceedings in Mexico and California in the matter of collecting revenue from French vessels.

SPAIN AND PORTUGAL.

The most important intelligence from Spain is, that the Queen and her husband have been seen walking together in public, which has excited the most lively satisfaction in the breasts of her ... The affairs of ... were in such a state ... apply to her sister of ... insurgents against ... Four thousand Spanish troops had entered Portugal and 7000 were on ... between the two countries.

ITALY.

A conspiracy has been recently discovered to assassinate the Pope. The assassin, a Capuchin ... was arrested ... a brace of pistols and a poniard dagger about his person.

GERMANY.

It is reported that whole villages are emigrating to the U S en masse, so that sections of the country are becoming unpopulated. Within a few days 2000 emigrants had sailed from Hamburg for New York.

The ports of Hambourg and Am der Geeste in Hanover, have been declared free.

HOLLAND.

The Dutch government is said to be much disquieted by the increasing disposition of the people to emigrate to the U States, and are making efforts to discourage it, by publishing letters from Dutchmen in the U S representing the misery which awaits the emigrant, and by calumniating the American character.

PRUSSIA.

Corn riots had taken place, proving destructive to the shops of many bakers and confectioners.

The King has lately issued a decree, allowing liberty of worship to all people. Hopes are entertained that he also intends to allow liberty to the press.

The Omega, late McFarlane, arrived at Hong Kong on the 10th of February, from Chimmo Bay, in the charge of Mr Drewitt, chief officer of the Harlequin having been attacked by three Chinese Junks in Chimmo Bay, 4th inst and plundered of 60 chests of opium and 10,000 dollars. The master, mate, and five of the crew were killed or drowned.

A large brig from Londonderry, Ireland, with 165 emigrant passengers, was totally lost on the Shinn of Islay, previous to the 29th of April, and all on board perished, excepting three of the crew.

To the famine in Ireland is now added the fearful plague of fever, which spares neither rich nor poor. The lord and the beggar are alike cut suddenly down. In all the large districts typhus fever is making terrible havoc. Deaths are so numerous in some places that the bodies cannot be buried, and are left to corrupt and fill the air with pestilence. The most distressing accounts are given of the rapid increase of fever, and of the numbers, without distinction of class, who are falling victims to the contagion. Doctors and medicine are now called for by many who are too weak to eat food!

All the seaport towns are crowded with emigrants, who, with money in his hand, or Hamden and his well known drafts, beg and fight to obtain a passage across the channel to Liverpool from thence they embark for the United States by thousands, almost every day. The bulk of the rural population have been gradually paralyzed by the famine. They are too weak to leave their country, but a better class are leaving—those who have saved a little money, or who have, had their passages paid by their friends in America. When I was in Liverpool, I witnessed the departure of hundreds of these persons—the sight was painfully affecting.

The cost of a steerage passage was formerly fifty shilling sterling, but it is now as high as four or five pounds, owing to the great demand for passages and the limited number of ships.—It is stated that the extent of emigration this season from Ireland alone will exceed the widest calculations that could have been formed in anticipation of the effects of the awful calamity which has befallen the country. The small farmers are said to be literally panic stricken, and are turning their stock, furniture, and every other saleable article into ready money to enable them to fly to the United States.

☞ All persons in the city who have shade trees near their dwellings should see to it that they are not injured by the plank side walks. Cut away the plank that it may not crowd the trees.

☞ We tender our thanks to Col Maxwell conductor on the Eastern Rail Road, and to the officers of the Governor for papers received yesterday, in advance of the mail.

☞ A warm, penetrating, and acceptable rain commenced here on Monday night. Vegetation has taken a rapid start, and the fields look green and hopeful.

☞ Improve the time now for a few days, in transplanting fruit, and ornamental trees, and you will have occasion by and by to rejoice and cause others to do the same.

☞ The U S Sloop of War Jamestown loaned by government to carry relief to Ireland, has returned safely to her station at the Charlestown Navy Yard, having been absent but 48 days.

[For the Whig & Courier.]

There is a deep mystery in death. It is hard to fathom the meaning of Jehovah in removing suddenly from earth, the young, the gifted, the promising, just entering upon the threshold of life—a mother just nestling in her bosom her first infant child and fondly looking forward upon life with joyous anticipations. A multitude of thoughts, and many deep heart emotions rushed upon us on hearing the announcement of the death of Mrs Eliza Jane Decker, wife of M A Decker of New York, at the house of her father, Col James Smith, in this city.

Mrs Decker was the delight of a large circle of youthful friends and added, in a remarkable degree, to great evenness and sweetness of disposition, a sterling love of simplicity and truth in all she said and all she did. Her reverence for God and religion was early developed in her mind and became a sincere sentiment which exerted an abiding influence upon her life. Her sphere was one of pleasing congeniality which none experienced but must remember with pleasant emotions.

Less than a year since she was married and took up her residence in the city of New York. She returned a few weeks since, full of hope and joy, to make a visit of a few months to her parents. She became a mother, and the promise of a long and happy future was bright and flattering. But a few days passed, and a cloud spread over her prospects of long continuance here, and before her condition could be made known to her husband and he could reach this city, her body was deposited in the silent tomb, leaving only his infant son to reflect the smiles of its sainted mother.

Her funeral was attended on the Sabbath by a large concourse of people and many eyes were wet with sorrow that one so loved and esteemed and so fitting to live and bless our world had passed away from mortal view.

But the memory of her sweetness, her truthfulness and unobtrusive gentleness and purity shall long survive, and come whispering to our grief stricken hearts, like the gentle breath of summer, telling us of the spirit world and the delightful association of angelic beings, and beckoning us upward and onward to a purer and a higher spiritual state. S

Holy Influence.

All the disciples of Christ are commanded in their measure and degree, poor and feeble as it may be, to be his image and representation also. Hence others may say, how inconceivably how unutterably good must that God be whose very reflection ... so lovely ... whom one can scarcely ever have any ... course, but one seems ... their blessed Master in them—something of his meekness ... humility, and love—something of his self denial, patience, submission—something of his purity, courage, and zeal, and holy confidence in God. There are some with whom we seldom mingle as we pass through life's pilgrimage, but we are ready to say of them—this is a man of God, a man of prayer, a man of holiness, I know with whom he has lately been. He has been at a throne of grace, he has been with God, and the savor of his name is upon him. Can we describe the weight, the influence, the moral importance which such an individual possesses? Impossible. His counsel and advice, his cautions, his encouragements, above all, his example and his prayers, are so many channels through which a gracious God conveys unutterable blessings to our souls.—J H Evans.

Correspondence of the Vera Cruz Eagle.

Yesterday, at noon, I left the encampment near Cerro Gordo simultaneously with the island of Mexican prisoners who had been released on parole, and who were wending their way to their different homes, or to some place from whence they may again be forced to take up arms against us. I believe the line extended as it was along the road was full five miles in length. The Guarda Nacionale was the only corps that maintained any order in their march—the residue trudging along as best they could, and a most admirable disorder.

We rode over the road on which they marched with great difficulty, turning our horses heads twenty different ways in the space of half an hour, to avoid riding them down. They were less sad than men under similar circumstances would generally be, and cracked many a joke at their own expense. This was in the early part of the march. But towards sunset, when they had measured eighteen or twenty miles of their journey—most of them in their bare—they became quite silent and sad, and the effects of the fatigue of the day, combined with previous privations, told sensibly upon them. I felt much interested in the numerous camp women—these devoted creatures who follow them through good and evil—and it grieved me to see them, worn down with fatigue, moving at snail's space their heavy burthens almost weighing them to the earth.

The woman of sixty or more years—the mother with her infant wrapped in her reboso—the wife, far advanced in that state that 'woman wish to be who love their lords'—the youthful Senorita frisking along with her lover's sombrero on her head, even to the prattling girl who had followed padre and madre to the wars—could all be seen at one view moving along—and bearing the hardships of the tramp, unconscious of the existence of misery in the world.

These women, like the Indians, are the slaves of men—a slavery they submit to under the all powerful influence of affection. In addition to their bedding and wearing apparel, they pack upon their backs the food and the utensils to cook it in, and worn out as they are by the toils of the day whilst their husband or lover sleeps they prepare his repast.

I noticed one man—a General—who left Gen Scott's quarters about the same time I did. He was an elderly man and I soon perceived from his hobbling that he had but one leg. His progress on the march was an object of curiosity to me, and I was surprised to see him keep up so well with the more youthful and perfect limbed.

I halted for some time at the hacienda of Santa Anna, to rest my horse, and my eyes ran eager over the column of prisoners to see if he had kept up. The fourth or fifth man to the writer was himself. He had refused a dozen offers to ride, both from our men and his own. About 11 o'clock at night all of them passed my entrance—save those who had sunk down from the effects of the march—which was about three miles from the place. An hour afterwards a polite voice at the tent asked permission to light a segar from the fire. I looked out, it was he. He said he had not been able to keep up with the advance but would reach Jalapa in one hour's time. The segar lighted, he hobbled off again and this morning I met him in the streets, apparently not at all affected with the jaunt.

When the Mexicans first surrendered it was about their dinner hour. In one of their forts the camp kettles were taken from the fire, and the rations were being proportioned out when the order for surrender came from the second in command—so they had to march out without their dinners. That evening, although large quantities of food had been served out to them by our commissaries, they were picking up old bones, stale pieces of bread, and everything that could be eaten. Yesterday, on the march, they would run up to a beeve, killed the day before by our advance, and cut off every piece that could be obtained as eagerly as if they were half famished.

From the foot of Cerro Gordo to Santa Anna's hacienda the road was lined with dead Mexicans and horses. At or near the rancho where General Twiggs overtook the retreating enemy, they lay thick around, and a more horrid scene it would be difficult to picture. Mexicans lay dead in every direction, some resting up against trees others with legs and arms extended, and occasionally a lancer lying with his arm upon the charger that received his death wound from the same volley that ended the career of his rider. Some of the prisoners passing through would occasionally halt to view the features of the deceased, and then mending their gait regain their place by the side of those who were more fortunate in the fight.

At the place above cited was to be seen all the property, other than munitions of war, taken from the enemy. In one place, arranged in good order, were all the pack saddles—then the pen containing mules—the provisions next comprising rice, beans, bread pepper Piloncees, garlic &c, piles of shoes, knapsacks, and all the paraphernalia of a Mexican camp. Capt R B Allen, A Q M stopped for a moment and gave orders as to the removal of these things.

The muskets taken from the enemy were being broken on stones as I passed the spot where they were. They were of no earthly use to us, and hence the summary mode of disposing of them.

Kelley & Co's Sarsaparilla!

"Kennebunk, Maine, April 3, 1847.

Messrs Joseph L Kelley & Co

Gentlemen,—I feel it my duty to make known, as far as lies in my power, the Vastly Superior Virtues of your invaluable Preparation of Sarsaparilla, and do, in this public manner, bear testimony to its astonishing effects upon a member of my family.

My son Charles C Stevens, was, for more than four years, most alarmingly afflicted with Scrofula and his case was still more desperate in consequence of a Mercurial Disease which had fastened upon him. Physicians did him not the slightest good, and every person who saw him thought he must die. But fortunately he commenced using Kelley & Co's Sarsaparilla, and to my utter surprise, he was able, in four weeks time, to walk about before which he had not taken a single step for more than eight months. When he commenced using your Sarsaparilla, his legs and arms were literally covered with sores, and several pieces of the bone of the leg were taken out. He is now enjoying good health,—and I believe that your excellent medicine has effected this Wonderful Cure, for he was continually growing worse all the time he was using the other preparations of Sarsaparilla. Respectfully yours,

PHINEAS STEVENS."

"Kennebunk, April 3, 1847.—What my father has above stated is strictly true. I am now well—cured by Kelley & Co's Sarsaparilla. CHARLES C. STEVENS."

A Dialogue.

Good morning A. how are you?

A. Not very well. This spring weather affects me.

B. The spring weather affects everybody. Do you ... Why don't you take a dose or two of Wright's Indian Vegetable Pills?

A. I don't believe in them. I don't believe one medicine can cure every thing.

B. I don't believe one medicine can cure every thing, either. ... But you believe it possible to prepare a medicine in such a way as to be applicable to the human system in all cases?

A. Why yes I believe in the possibility of anything ... a days.

B. Well that is all I want you to admit. Call in to night and I will give you a dose of Wright's Indian Vegetable Pills to try on, and if you don't pronounce the medicine the best you ever used, why, you will then be able to estimate my opinion next time as it deserves.

A. Thank you friend B. I will try anything on your recommendation. [Exit severally.

Beware of Counterfeits of all kinds! Some are coated with sugar others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

ANOTHER WONDERFUL CURE!
Philadelphia, April 9, 1846

Last August I caught a violent cold in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern supposing I should soon get rid of it. On the contrary however I daily grew worse, a violent cough set in then pain in my breast and between my shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alarmed, and my friends considered my situation extremely critical, the more so as loss of appetite hectic fever and night sweats rendered me weak as a child. At night the sweat literally poured off me. This was my condition when I commenced using "Thompson's Compound Syrup of Tar and Wood Naptha." I procured one bottle and experienced so much benefit that I resolved to continue it. I took in all nine bottles and am now perfectly restored. It is now six months since I ceased using the medicine and the cure remains perfect. I firmly believe this medicine is far superior to every remedy for Consumption of the Lungs.

A NEW INVENTION!
DR P CRAIN'S PATENT
Spine Abdominal Supporter

FOR the cure of Uterine Affections, Curvatures of the Spine Weak Backs, Stooping Postures Round shoulders, and General Debility — is the best instrument for any of the above difficulties. It is hoped those who need an instrument for support will call and examine this at HALL & YOUNG'S No 4 Smith's Block, where they may be found for sale.

The above is the best Chest expander now in use. The advantages it has over all others are 1st it is simple and not liable to get out of order, 2d it will not rust nor soil the clothes, 3d it lifts more and supports the whole spinal column in all parts alike, or any one part more or less as the case may require.

DIRECTIONS.
Be sure and have an exact fit. Those who cannot apply to the Agents in person may send the following measurement. Draw a tape snug around the body, one half inch above the hip bones, and send the number of inches.

Country Physicians are invited to call and examine the instrument for sale by HALL & YOUNG. Agents for Bangor and vicinity.

F. BROWN'S
SARSAPARILLA AND TOMATO BITTERS.

THESE excellent Bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite General Debility Faintness and sinking of the Stomach Lowness of Spirits, Costiveness, Determination of Blood to the Head Pain in the Limbs and Side, Diarrhea, Weakness, Dizziness, Cutaneous Eruptions on the face and neck fever, night sweats, nervous and sick headache Acidity of Stomach, bilious affections piles, costiveness and in all diseases caused by impurity of the blood the debility of the system or the unhealthy state of the stomach and bowels.

They are also exceedingly efficacious in restoring constitution broken down by sedentary employments, and have been extensively used by Clergymen Doctors Printers, Clerks Seamstresses and numerous others whose health had been injured by confinement and close application, with the happiest results.

They restore the action of the stomach, increase the quantity of the blood and impart to the wan and emaciated system of the invalid the vigor and glow of fine health.

These Bitters are warranted to be a purely Vegetable compound—and mark this, they can never do the least injury in any case whatever.

They are kept by many persons as a FAMILY MEDICINE, and have been given to the *youngest children*, on account of the mildness of their operation with excellent effects.

Be sure and always ask for Brown's as there are imitations and counterfeit articles sold which are no more like the genuine (which is prepared by Frederick Brown) than cold water.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, particularly when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole feature. When used with propriety and according to the directions, it will be found to be a great addition to the toilet as the use of any sharp instrument is entirely avoided and the hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials I have [illegible] certificates of success which cannot be contested.

READ THIS!
FOR MAN AND BEAST.

DR KITTREDGE'S Green Nerve and Bone Ointment discovered and used by the late Dr Kittredge of Walpole, N H with the most unparalleled success, is now prepared by Geo. C Goodwin, Druggist, 76 Union street, Boston from the Original Recipe and is confidently recommended to the public for the cure of the following diseases incident to the human frame.

Rheumatism, Lameness, Sprains Gout Salt Rheum, Scrofula, Piles, Humors, Contractions, and all external complaints. It is also equally celebrated in the cure of the following external diseases of Horses and Cattle—Sprains, Galls, Cuts, Scratches Bruises, Whirl Bone, Pollen, Cough, Stiff Joint, Fistula in the Eye &c.

Numerous certificates might be produced attesting to its inestimable virtues and the public may rest assured that this ointment is superior to any remedy ever invented for the cure of the above named diseases and unlike too many highly extolled medicines. It is no humbug, as proof of which the proprietor will himself, and here [authorizes] his Agents in all cases to refund the money where it does not give the most unbounded satisfaction.

GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country as the great and ONLY RELIABLE REMEDY in the worst cases of Pulmonary disease and the best and most agreeable curative of all the slight forms of colds cough and inflammation, that can possibly be cured.

SPITTING OF BLOOD! This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs to a sound and healthy condition.

REMEMBER THIS. Spitting of Blood always arises from a tendency to Tubercular disease and if not checked, at the outset, will sooner or later determine in death. A person who raises blood once, will raise blood again, unless a proper curative is immediately employed!

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous indication of disease. It prevents full and free breathing and wears away the natural strength of the system. The cause of the symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in its operation.

LIVER COMPLAINT. In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines. On dissecting Consumptive patients, Tubercles are often found in all these organs, as particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam in disease of the Liver especially [those] of an ulcerous nature is direct and powerful. Simple disease of the Liver, unattended by Consumption is speedily cured by its use.

WINTER COUGH! The harsh, dry hacking winter cough which afflicts old people and invalids in a low state of health is happily affected by the Hungarian Balsam. It warms moistens, and stimulates the whole breathing apparatus removes all morbid mucus, and other foul matter, [illegible] improves the secretive power of the Liver, Spleen, and other glands, and the digestive organs, and imparts new life to the whole animated system.

BRONCHITIS. Bronchitis Difficulty of Breathing, Harsh Cough, a slimy expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and speedily cured by the use of the admirable remedy invented by Dr Buchan.

This is a very painful wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted and employ this valuable remedy.

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers, (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases.*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter and expectoration gives great relief and inability to expectorate in the latter stages of Consumption is the cause of death.

The Hungarian Balsam is *a great Expectorant.* — It dissolves the morbid and diseased matter in the air passage changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered.

SPASMODIC ASTHMA! Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as easily as any other form of Pectoral disease.

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self.* The Hungarian Balsam, by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion.*

Before it delightful influence all chills, fever night sweats, costiveness, blueness of the nails a hot flushed skin an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun. This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country.

"BE WISE TO DAY" Delay in any case of Consumptive tendency, is emphatically Death [in] all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described be advised in time.

THE GRAEFENBERG PILLS.

THERE ARE THE [illegible] class of [illegible] PATENT [illegible] that attends the [illegible]

Graefenberg Vegetable Pills

[illegible] It will be seen by this [illegible] the history of all [illegible] the arrival of what may be termed THE FULNESS OF TIME. [illegible] So with the discovery of the New World, upon whose [illegible] The Old World had reached its highest [illegible] So with the invention of printing [illegible] "fullness of time" marked distinct and Providential.

IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. [illegible] We can trace them from the Mosaic dispensations down to the present hour, all of them teaching on the lesson and giving us the hope that *something yet better* to heal human maladies is at hand.

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it — The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers. Planting himself upon the revelation of the

ALMIGHTY CREATOR,
THAT
"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patient *make pure the life current* that leaps through their veins and arteries, before they can hope for a PERMANENT CURE. [illegible]

But a most sad thought here comes in! The countless [illegible] of the impositions which are practiced upon the public by pretenders, and so numerous and unsuccessful are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word therefore on this point.

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may be [illegible] the paper will convince you [illegible] in every State and Territory in the Union and among them distinguished statesmen, jurists, clergymen, physicians civilians. The bare enumeration of their names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette which can be had

GRATIS!!

In the second place TRY THE PILL. It will cost but the merest trifle and will introduce you to a medicine which you will deem a blessing to [illegible] friend [illegible]

A thousand things press upon the minds of the advertiser which they would rejoice to say to the reader, but the limits of his advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED.

Asthma	*Gout*
Bilious Complaints	*Fluor Albus, or Whites,*
Colic	*Gastric Fever,*
Bowels deficient action in,	*Green Sickness,*

FROM A DISTINGUISHED GENTLEMAN OF BOSTON.
Gentlemen
I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day a good health for many years past, and having an old man, I despaired of ever regaining [illegible] life, but a friend recommended me to try your Pills which I did, although without any confidence in the result. I am happy to inform you that far exceeding my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ——, OF GEORGIA.
Sirs,
Since writing to you last upon the subject of my [illegible] health I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt I shall bless the day you sent them. I need not allude again to the sufferings I have [illegible] told you of, but intend to persevere and hope to be able the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many in the [illegible] of my neighborhood where they have performed some extraordinary cures."

SICKNESS IN CHILDREN.

And the sufferings which they undergo from WORMS often tend to a fatal termination while the CAUSE is never suspected. Offensive Breath, picking at the nose grinding the teeth during sleep starting in sleep with fright and screaming trouble some cough, and feverishness are among some of the *Prominent Symptoms* of the presence of worms. A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms and restore to perfect health. Sister Ignatius, Superior of the Catholic Half Orphan Asylum, has added her testimony in their favor to the thousands which have gone before. She states that there are over 100 children in the Asylum, and that they have been in the habit of using Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects. They have been proved to be infallible in over 400,000 cases.

CONSUMPTION,
Influenza Coughs Colds Whooping Cough Tightness of the Lungs or Chest may be cured. Rev Darius Anthony was very low from Consumption, Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood. Rev Mr Dunbar of New York, the Rev Mr De Forest Evangelist in the Western part of this state, Rev Sebastian Streeter of Boston the wife of Orasmus Dibble Esq, in Moravia and hundreds of others have been relieved and cured by a proper use of

SHERMAN'S COUGH LOZENGES,

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases, or which can be recommended with more confidence. They allay all itching or irritation, render the cough easy, promote expectoration remove the cause, and produce the most happy and lasting effects.

HEADACHE,
Palpitation of the Heart Lowness of Spirits Sea sickness Despondency Faintness, Cholic, Spasms, Cramps of the Stomach Summer or Bowel Complaints, also all the distressing symptoms arising from free living or a night of dissipation are quickly and entirely relieved by using

SHERMAN'S CAMPHOR LOZENGES.

They act speedily and relieve in a very short space of time, giving tone and vigor to the system, and enable a person using them to undergo great mental or bodily fatigue.

RHEUMATISM.
Weak Back, Pain and weakness in the Breast, Back, Limbs and other parts of the body are speedily and effectually relieved by SHERMAN'S POOR MAN'S PLASTER, which costs only 12½ cents, and is within the reach of all. So great has become the reputation of this article, that one million will not begin to supply the annual demand. It is acknowledged to be the best strengthening Plaster in the world.

From the "Western Star" a religious periodical, published at Jacksonville Illinois.

"DOWNS' VEGETABLE BALSAMIC ELIXIR — We are not in the habit of puffing medicines in our columns, but having used the above article in our family with gratifying success, and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumptions Whooping Cough, Asthma and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice.

Elder Downs, an acquaintance of ours, was himself an invalid for a long time and was thought to be far gone with the consumption, a disease hereditary in his father's family. This remedy was the means of restoring his own health, and multitudes have testified to its salutary effects upon themselves and families."
